**THE SELFHELP HOME**  
A TRADITION OF CARING

Bias affects all of us in ways we often don't realize. It can be devastating for everyone, particularly those in healthcare settings. Chris will help us to understand bias, how it develops, and provide strategies to reduce bias in the healthcare setting. Mandated reporting will also be addressed.

This presentation satisfies the Illinois yearly Implicit Bias training requirement.

Presented by Chris Petrik, RN, BS, DCSS-CI  
Director of Education, Dementia Reality Master Trainer
